## Dewitt Clip-Its

CLIP.....\$ 0.25

DeWitt Clip-its are a do-it-yourself, on-sight fastening device. They cover a larger surface area for strength and stability. DeWitt Clip-its cost less than brass grommets and provide superior holding quality. Made of 100% recycled plastic.

## Shade Curtains

### Black out and /or heat retention system

VRE curtains ensure a more uniform growing environment for your crops by enabling you to control light levels and heat loss. They may be installed in any type of greenhouse and are available in manual, semi-automatic or fully automatic systems.

The shading, black out and/or heat retention system consists of an electric motor driven unit, complete with reversing controls and built in travel limit switches to control the open and closed positions. It includes an emergency cut out limit switch in case of malfunction by the travel limit switches. Each drive unit mounted beneath the system is connected to a pipe drive shaft by means of universal joints and drive shaft support bearing plates with sealed ball bearings. The stainless steel drive cables, via a pulley arrangement, move the curtains. An aluminum tube carrier forms the connection between the drive cable and a 3/4" diameter galvanized tube leading edge.

**For more information on VRE curtain systems and pricing, please contact our Greenhouse Design department.**

## Supreme Crop Protection

DeWitt's Row Cover and Over-Wintering Fabrics provide a protective environment for your plants. Don't take a chance when winter weather threatens...protect your crops with DeWitt Winterization Fabrics.

### Deluxe (.5 oz/sq yd)

Provides up to a 4 degree frost protection with 85% light transmission. Creates an excellent micro environment for seed germination and seedling growth. Provides 90-95% average seed germination compared to a 60-65% with straw or hay.

### Deluxe Plus (1.0 oz/sq yd)

Provides 4-6 degree freeze protection with 70% light transmission. Protects against cold, wind, birds, insects and scorching sun helping to produce larger, earlier and more productive yields.

### Supreme (1.5 oz/sq yd)

Provides 6-8 degree freeze protection with 50% light transmission. Ideal for protecting flowering annuals, bedding plants & vegetables from severe cold and freezing temperatures. Can help lengthen your harvest period and extend your flowering season.

### Ultimate (3.0 oz/sq yd)

Provides 10+ degree freeze protection with 25% light transmission. The most durable, effective product available for over-wintering perennials and other ornamentals. Designed to hold in heat and allow irrigation and rain to pass through. Will not cause foliage burn even on sunny days. Superior durability allowing reuse through multiple seasons.

## Sunbelt™ Ground Cover

DeWitt Sunbelt™ woven ground cover consists of 3.2 oz. polypropylene, which resists tearing, puncturing and weed penetration. It is approved for most government weed control applications.

Sunbelt™ is ideal for greenhouses, outdoor displays and as a weed barrier for plantings without topical coverings where a weed free environment is a must. DeWitt Sunbelt™ is striped every 12 inches for aid in plant alignment and is UV stabilized to last even in direct sunlight.

WHM #	Description	Price
SB3	Sunbelt - 3' x 300'	\$ 57.79
SB4	Sunbelt - 4' x 300'	\$ 80.11

MSS118	Sod Staples - 8", 8 ga. - 500/bx	\$ 61.50
MSS812	Sod Staples - 12", 8 ga. - 250/bx	\$ 60.00

The DeWitt Pro 5 weed barrier is a premium product for weed control. The 5 oz. fabric has green guide strips on one side and a fuzzy "felt" on the other. The fuzzy side encourages water percolation and helps hold the fabric firmly to the ground. On steep sites, the Pro 5 can be placed fuzzy side up to help hold mulch in place.

**The #1 choice of  
professional landscapers**  
Designed for the professional who wants  
the best in a finished job

## Working with nature... naturally.

Since 1967, Texel has exploited the enormous potential of needlepunched nonwoven fabrics in designing innovative, high-performance products for use in industrial, commercial, and residential applications. Our products distinguish themselves by being innovative and respecting today's environmental concerns.

- *Production cost rationalization - Users reduce labor costs as well as limit use of fertilizers and herbicides.*
- *Process flexibility - Flexible, lightweight, easy to install, and practical, Texel products make work easier and adapt to any production process.*
- *Optimal plant growth - Root & weed control solutions improve the quality of horticultural products.*
- *Winter protection - Practical and flexible, our commercial and residential products effectively protect plants against the climate's harmful effects.*

### Root Control Solutions

Tex-R® root control agrotexiles improve the quality of root systems, mostly by preventing roots from circling and from developing outside of their growth space.

**Tex-R Insert™**

Root control barrier for pot-in-pot production

**Tex-R Propagation™**

Root pruning membrane

**Tex-R Agroliner™**

Tree production bag

**Tex-R Barrier™**

Permanent barrier for landscaping

### Weed Control Solutions

Flexible, lightweight, easy to install, and practical, Texel products help reduce labor costs associated with weeding. They limit the need for herbicides and they have been designed to adapt to any production process, optimizing plantation productivity.

**Tex-R Geodisc™**

Weed control disc

**Garden Helper®**

Separation membrane

**TexPro-100™**

Ground covering for production nurseries & garden centers

**Tex-R Industrial™**

Weed control Agrotextile

**Special Order**  
**Only! Please Contact Your Sales Representative or Local Customer Service Center for Pricing & Availability**

### Winter protection for plants

Texel products have demonstrated their high level of effectiveness for commercial as well as residential use against freezing, freezing rain, drying out, and harmful agents such as road salt.

**SolTex™**

Winter protection for the lawn

**ArboTex®**

**ArboTex Plasticized™**

Winter protection for trees and bushes, rosebushes, evergreen shrubs and perennial and bulb planting sites.

**Arbo-Plus™**

Winter protection for plants in the nursery

Whether it be contributing to the increased productivity in the production of high quality plants or facilitating the installation and maintenance of a landscaped area, Texel horticultural products allow users to take advantage of the best that nature has to offer.
