## GARDENMUM / ASTER TRIPLE-STUCK COMBOS

Aster (36-strip) Mums (36-strip)

Garden Mum Combos are an exciting way to sell Mums in any market. This unique look will be the rage in Fall 2012. We offer 9 Garden Mum and 1 Aster Combination in a "triple-stuck" 36-strip liner. We take 3 cuttings of different colors from the same family and "stick" all 3 in a single liner cell. Using Mums from the same family ensures consistent habit and flower timing.

Transplant the "triple-stuck" liner into your choice of container and grow using standard mum growing guidelines.

We continue to trial this unique sticking method to find the best performing combinations.
