"Lets grow something together"

Larger containers are available. Contact your salesperson or local Customer Service Center for details and current pricing.

HPP Containers are heavy-duty to ensure superior strength, longevity and durability.

HPP containers are made from recycled HDPE material. This material, such as milk jugs and detergent bottles, originates from all over North America. It is processed into a clean usable flake form, then carbon black color is added to provide UV protection to increase the durability and longevity of the containers.
